

We make culture move.

Zenematic is a cinematic media studio based in Kansas City — built at the intersection of sports, fashion, and entertainment. We don't just document moments. We give them weight.

One-line pitch

"Zenematic is a cinematic media studio that brings movement, intention, and a director's eye to brands that want to be felt — not just seen."

BRAND PERSONALITY — THE 4 PILLARS

Cinematic

Everything looks like it belongs on a screen. Not because of gear — because of vision. Zenematic sees the world in frames.

Intentional

Nothing is accidental. Every choice — angle, light, timing, edit — is deliberate. This is the Zen in Zenematic.

Grounded

Built in KC. Informed by Vietnam. Present in sports arenas, fashion studios, and performance stages. The work is rooted in real culture.

Quietly powerful

No hype. No overselling. The work speaks. Zenematic doesn't need to be loud to be felt.
